The remains were prepared for burial by Undertaker R. L. Cunningham, and will be interred tomorrow morning at eight o'clock in the Polish cemetery in Monongah, following brief services.

The six men are all in the county jail awaiting a hearing before Justice Fleming.

Several witnesses give bond. Several warrants have been served upon the men whose names were found upon the Ben. G. been materially weakened.

The announcement from France of the re-creation of the post of marshal of France, coming simultaneously with the report of Gen. Joffre, commander in chief of the French forces, of the satisfactory condition along the entire battle line has been hailed by the allies as peculiarly significant.

In the eastern field, the German navy is showing increased activity on the Baltic coast. It is in readiness to support German land forces if they succeed in forcing the passage of the river Nieman.

In the meanwhile, there has come to London news that within a week a new Russian army, a million strong, will join the present army in Poland and Galicia, for Russia's principal attack on Germany.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.

HOW FRENCH PEOPLE CURE STOMACH TROUBLE.

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Hall Drug Co.

American Couple Goes Through Hail Of Lead

NEWPORT, KY., MAN AND INVALID WIFE SEE CHAUFFEUR KILLED AND OBSERVE WAR CONDITIONS IN BELGIUM.

LONDON, Oct. 1.—While driving from Brussels to Cranmont, where they purposed taking a train for Ostend, Edgar Allen Cantrell of Newport, Ky., and his invalid wife went through a hail of bullets, one of which killed their driver.

Mr. Cantrell gives a graphic picture of Belgium since the German invasion. He says the stench from the shallow burial trenches is unbearable, and that the bodies in these graves are often cut up by the heavy wheels of passing artillery. The railroads generally are marked by overturned locomotives. The forts of Liege, Mr. Cantrell said, look as if they had been shattered by an earthquake. He passed German soldiers feeding refugee peasants on bread and soup. Near Brussels he saw a trainload of prisoners. The Germans allowed the people to give food and tobacco to French prisoners, but not to Englishmen. The English filled 15 cars.

Mr. Cantrell talked with a wounded German officer, who said that the English infantrymen were so fond of cover that they were not feared. But he described the English cavalry as devils. He said they charged standing up in shortened stirrups and that the swing of their sabers benched their enemies. They handled their horses like ponies on a polo field.
